EVOLUTION SPORT ELITE
MULTI-PARTICLE

Maintenance to High Performance Horse Ration

This feed contains added selenium at 0.40 mg/kg

GUARANTEED ANALYSIS

Crude Protein.....	Min. 13.00 %
Crude Fat.....	Min. 8.00 %
Crude Fibre.....	Max. 15.00 %
Calcium.....	Actual 0.60 %
Phosphorus.....	Actual 0.50 %
Sodium.....	Actual 0.60 %
Vitamin A.....	Min. 7600 IU/kg
Vitamin D3.....	Min. 1310 IU/kg
Vitamin E.....	Min. 220 IU/kg

ABOUT

Evolution Sport Elite is a low glycemic, multi-particle feed (contains pelleted and extruded components) for equine athletes, breeding stallions, early gestating mares and hard-keeping maintenance horses. Evolution – Elite Sport utilizes the latest research on the requirements vital for optimal performance and gut health while minimizing attitude problems. Formulated with proven quality ingredients and manufactured exclusively by Agribands Purina in a specialized drug-free equine facility.

DIRECTIONS FOR USE

Evolution Sport Elite is recommended for equine athletes, breeding stallions, early gestating mares and hard-keeping maintenance horses. Feed in conjunction with water and a minimum of 1% body weight (on a dry matter basis) of a long stemmed forage (hay/pasture). Feed according to the following table, whereby the lower quantity meets minimum vitamin and mineral requirements and the higher quantity meets Purina Superior Recommendations. Ideally, feed enough to achieve desired body condition, and for every kilogram under the recommendation, provide 225 grams of **Purina Equilizer** (35710). Provide free-choice salt. Daily ration should be divided into 2 and preferably 3 separate feedings daily.

kg / 100 kg of Body Weight

	Minimum	Purina Superior
Maintenance	0.5	0.75
Performance		
Light Exercise	0.73	1.0
Moderate Exercise	0.82	1.13
Intense Exercise	0.91	1.25
Stallions		
Breeding	0.73	1.0
Non Breeding	0.50	1.0
Broodmares		
Early/Mid gestation	0.79	1.0

Characteristics	Benefits
Contains reduced starch and higher fat and fibre content (commonly referred to as low glycemic)	Delivers sensible calories (energy) needed for performance.
	Helps minimize excitability
	Proven to effectively lessen glycemic and insulin response.
	Helps minimize gut upset (colic) by preventing starch overload in the hindgut
Contains a high pectin fibre source (beet pulp)	A highly fermentable fibre source providing needed calories for performance
	Helps maintain a healthier hindgut pH and microbial population.
Contains Athlete™, Purina's unique extruded high fat supplement with flaxseed (an excellent source of Omega 3) with a 5:1 balanced Omega-6 to Omega-3 ratio.	Higher digestibility and calorie (energy) availability
	Improves hair coat and skin condition
	Supports immune function and anti-inflammatory properties
	Helps maintain proper cognitive ability
	Omega-3 fatty acids shown to enhance insulin efficiency thus reducing insulin resistance
Contains Horse Plus™, Purina's exclusive blend of Vitamin C, and a full complement of all B vitamins including biotin	Improves fertility and sperm quality.
	Essential blood-building nutrients
	Supports immune function and overall health Essential for proper utilization of energy for exercise
	Improves fertility and sperm quality Helps protect against exercise induced stress.
Contains balanced amino acids with added Lysine & Methionine	To maintain proper muscle tone and joint function
Contains organic copper, zinc, manganese and selenium	Increases absorption and enhances trace mineral bioavailability to improve immune response
	Supports immune function and overall health
Contains Purina Yeast Culture	Improves hindgut fermentation which increases energy, protein and phosphorus utilization
Contains prebiotics and probiotics	Helps promote good gut bacteria and protect against harmful bacteria for improved gut health
Contains an elevated level of selenium (0.4 mg/kg)	Important antioxidant
	Helps supports immune functions and overall health
	Helps protect against exercise induced stress.
