Guaranteed Analysis

Protein	13.00%	Sodium	0.60%
Fat	6.00%	Vitamin A	6500 I.U./kg
Fibre	18.00%	Vitamin D3	1200 I.U./kg
Calcium	0.85%	Vitamin E	220 I.U./kg
Phosphorus	0.55%	Selenium	0.30 mg/kg

Directions for use

SuperFibra Ultra is recommended for performance horses, show horses, breeding horses and yearlings. Feed according to the following table. Individual horses variance may require feeding rate adjustment of plus or minus 15% of amount indicated. Feed in conjunction with water and a minimum of 1% body weight (on a dry matter basis) of a long stemmed forage (hay/pasture). Feed according to the following table, whereby the lower quantity meets minimum vitamin and mineral requirements and the higher quantity meets Purina Superior recommendations. Ideally, feed enough to achieve desired body condition, and for every kilogram under the recommendation, provide 175 grams of Purina Equilizer (35710). Provide free choice salt. Daily ration should be divided into 2 preferably 3 separate feedings.

Daily amount of SuperFibra Ultra kg / 100 kg of body weight

	Minimum	Purina Superior
Maintenance	0.67	1.00
Performance		
Light Exercise	0.73	1.33
Moderate Exercise	0.82	1.50
Intense Exercise	0.91	1.67
Stallions		
Non Breeding	0.67	1.33
Breeding	0.73	1.33
Broodmares		
Gestation	0.92	1.33
Yearling		
13 to 18 Months	1.33	1.67
19 Months and +	1.14	1.67

SuperFibra Ultra is a versatile feed low in sugar/starch (NSC - nonstructural carbohydrates) in a pellet format.

SuperFibra Ultra is a complete feed designed to meet the needs of maintenance, exercising, breeding horses and yearlings that require a low sugar/ starch diet.

SuperFibra Ultra is formulated with certified quality ingredients and is manufactured exclusively in our specialized and drug-free facility in Strathroy, Ontario.

Characteristics

CHARACTERISTICS	ADVANTAGES
Contains reduced starch and higher fat and fibre content (commonly referred to as low glycemic)	<ul style="list-style-type: none"> Delivers sensible calories (energy) needed for performance and maintaining body condition. Helps minimize excitability. Suitable for horses that "tie-up". Proven to effectively regulate glycemic and insulin response. Suitable for horses with a history of laminitis, Cushing's Disease or insulin resistant. Helps minimize gut upset (colic) by preventing starch overload in the hindgut.
Contains high pectin and hemicellulose fibre. Does NOT contain economical fibre sources like oat hulls	<ul style="list-style-type: none"> A highly fermentable fibre source providing needed calories for performance. Helps maintain a healthier hindgut pH and microbial population.
Contains 4% fat from vegetable sources	<ul style="list-style-type: none"> Highly digestible and energy/calorie dense. Less feed required to maintain body condition. Clean burning fuel, does not produce lactic acid and spares glycogen levels for enhanced athletic performance.
Contains yeast culture	<ul style="list-style-type: none"> Improves hindgut fermentation which increases energy, protein and phosphorus utilization.
Contains elevated and added amino acids including DL-Methionine	<ul style="list-style-type: none"> Provides building blocks for improved muscle and joint development and milk production.

Ingredients

Fibre	Soya Hulls
Protein/Amino Acids	Soya Bean Meal, DL-Methionine
Starch	Ground Corn, Ground Wheat
Fat	Soya Oil
Prebiotic	Yeast
Probiotic	
Vitamins	Vitamin A, Vitamin D3, Vitamin E, Vitamin K, Riboflavin, Niacin, Thiamine, Vitamin B12, Biotin, Choline Chloride
Minerals	Salt (Sodium Chloride), Calcium Carbonate, Calcium Iodate, Copper Sulphate, Ferrous Sulphate, Manganese Oxide, Zinc Oxide, Organic Selenium, Cobalt Carbonate, Mono Dicalcium Phosphate
Multi-Attributes	Wheat shorts

* Ingredients are not in order of their inclusion rate.

- Amounts can vary depending on the hay. Purina recommends that you have your hay analyzed and balance your ration accordingly. Also, depending on the hay, Optimal (35720) may be better suited as a supplement than Equilizer (35710).
- If your horse rapidly consumes this feed and/or if hydration status of your horse is questionable, we recommend adding water to this feed or using other measures to ensure an appropriate rate of intake.
- Do not provide more than 0.5% of body weight of this feed at one time.
- Provide a source of fresh, clean water at all times.
- Follow sound management practices along with disease and sanitation control measures. If there are any questions, contact your veterinarian, Purina dealer or Purina sales consultant.

Caution

Directions for use must be carefully followed.

Feed is perishable. Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, abortion or death.
